The concept of Balance Tetris is inspired by the classic game of Tetris, originally designed and programmed by Alexey Pajitnov.

The unique twist of combining Tetris with a balancing challenge draws from various balancing games and puzzle mechanics.

I am not sure who the original creator of Balance Tetris is, but I found out about this game through the following sources:

- paulorfo for their Balance Tetris design on Thingiverse: [Balance Tetris by paulorfo](#)
- AlanB93 for their Tetris Tower design on Thingiverse: [Tetris Tower by AlanB93](#)

These designs and ideas have significantly inspired and influenced this version of Balance Tetris.

Thank you for your creativity and contributions to the gaming community.
